## MONTHLY PERIODICAL INDEX

This department lists the *articles* and *comments* which appear in twenty-four leading law reviews. In the present instance, the index covers material which has appeared in the last issue of these reviews (May or June) or during the course of the summer. Hereafter it will embrace only material published during the *next preceding month*.

Limitations of space make necessary the inclusion of only the longer and more important items: articles and comments. Accordingly, decision notes (except those over five pages in length), book reviews and biographical articles are excluded.

(a) indicates a leading article; (c) indicates a comment. Where the title of an article or comment is not self-explanatory, an indication of its scope is added in brackets.
