The committee's work this year focused primarily on a project to microfilm Michigan Supreme Court briefs; investigating the Court's indexes and files to see whether it would be possible to create a master list of all documents filed with the Court which would be included in the filming project; finding vendors who might be able to carry out the microfilming; describing the project to them; and obtaining cost estimates. Also, the committee worked to resolve questions about the ownership of the State Law Library's copy of the briefs.

In addition, the committee is in the process of inquiring about a major publisher's practice
of collecting a "tax" on material that may not be taxable.
