OUR MAN IN HUTCHINS. Feeling that the student body may have some interest in the administrative arrangements for the Law School now that a new dean is at the helm, Asst. Dean Proffitt has supplied the following outline. This will acquaint old and new students alike with the duties of Michigan legal professors outside the classroom context.

The three primary functions which belong to the Law School have been stated thusly by Dean A. F. Smith: (1) the education and training of lawyers embracing professional competence, professional responsibility, and public responsibility; (2) the advancement of knowledge through fostering research; and (3) participation and leadership in fostering law reform, and maintaining satisfactory relations with the practicing bar and its professional organizations. The Dean's personal attentions are to be mainly directed to curriculum planning, teaching methods, personnel, and budgetary matters.

Assistant Dean Roy Proffitt will continue in that capacity and as such will be concerned with supervisory duties relating to the scholarship and loan program, registration, publication of the Law School Announcement, and preparation of class schedules. He also acts as liaison faculty member with various student groups.

Professor Charles Joiner has been made an Associate Dean at the request of Dean Smith to serve on a twelve-month basis to devote administrative attention to law reform and the external relations of the Law School. In this position his contacts and valuable relations with various state and national bar groups will provide for the attainment of maximum benefits to be derived from rapport with these organizations.

Associate Dean Russell Smith will continue in that position and take over the responsibility as Director of Legal Research. He will continue to serve as co-director of the Industrial Relations Institute also.

Professor Alfred Conard has been named Director of Graduate Studies and will assume such duties as are required for the enhancement of this program.

There are numerous other provisions in the Dean's Memorandum, but neither time nor space will allow their statement at this time. But it is plain that Dean Smith has launched his administrative ship in the legal waters of Michigan Law School, and that his aids who man the oars are equipped and ready to continue the task of maintaining the fine traditions of this school. Fair weather and good sailing to you, the faculty, from us, the students.

LEGAL AID: All seniors and juniors interested in working in the legal aid program are asked to attend a meeting on October 11 (Tuesday) at 4:00 in room 138 Hutchins Hall. This year's program will include, as in the past, indigent cases where counsel is appointed by Judge Breakey. It is hoped that during the year the scope of the legal aid program will be expanded in cooperation with the local bar association.
